## Blaine County Culvert & Ditch Policy

Blaine County will be responsible for all installation and maintenance of culverts used for drain water or lateral ditches associated with irrigation water within the county right-of-way.

Culvert replacement will be the sole responsibility of Blaine County, and will be done as workload allows. If the ditch companies requested the work be done after hours or on weekends, the ditch companies will be billed for all costs associated with overtime hours.

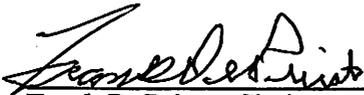

All cleaning of the drain ditches and laterals in the county right of way associated with irrigation water will be the responsibility of the ditch companies. All material from the cleaning will be placed out of the county right-of-way.

Projects that include lands out of the county right-of-way will be billed proportionally according to costs and the amount of land outside the county right-of-way.

IN WITNESS WHEREOF, The undersigned has executed this policy to Blaine County on this 25th day of March, 2015.

Sincerely,

Attest:

  
\_\_\_\_\_  
Frank DePriest, Chair

  
\_\_\_\_\_  
Sandra L. Boardman, Clerk & Recorder

  
\_\_\_\_\_  
Charles Kulbeck, Commissioner

  
\_\_\_\_\_  
Dolores Plumage, Commissioner
